Aspiring AI Engineer — Full Stack Developer — AI Explorer & Content Creator

Professional Summary

Passionate and detail-oriented Information Science graduate and **Full Stack Developer at Archelos Intelsense Technologies** with hands-on experience in **Software Testing, Web Development, Automation, and AI-assisted workflows**. Skilled in **React.js, Node.js, Java, Selenium, REST APIs, debugging, and automation testing**. Enthusiastic about exploring AI technologies, building scalable applications, and creating technology-focused content as an **AI Explorer & Content Creator**. Strong problem-solving mindset with a commitment to continuous learning and innovation.

Education

Acharya Institute of Technology Bachelor of Engineering (Information Science and Engineering) CGPA: 8.27	Dec 2021 – May 2025
Vijaya Chetana PU College PCMCS Percentage: 93.5%	Jun 2019 – Jul 2021
Sabaramathi High School Percentage: 92.36%	May 2019

Experience

Full Stack Developer — Archelos Intelsense Technologies	Jan 2026 – Present
--	--------------------

- Working on **full-stack web development** to build scalable and responsive applications.
- Developed and enhanced **modern web interfaces** with focus on UI/UX, responsiveness, and performance.
- Worked on **API integration, authentication systems, debugging, and feature implementation**.
- Collaborated on real-world development workflows to improve user experience and application performance.

Software Testing Intern — Shopper Stack	Jun 2025 – Aug 2025
--	---------------------

- Tested product browsing, search, filtering, and checkout workflows to ensure seamless shopping experience.
- Performed **System Testing** and **Regression Testing** after updates to maintain platform stability.
- Validated website compatibility across browsers, screen sizes, and devices.

Fireflink AI Tool Training	Aug 2025 – Nov 2025
-----------------------------------	---------------------

- Gained hands-on experience in **AI-powered testing automation** using Fireflink.
- Designed and executed **test cases** and **test scenarios**.
- Converted manual testing workflows into automated scripts and validated execution outcomes.

Internships

Software Testing Trainee — QSpiders, Bangalore	Jun 2025 – Dec 2025
---	---------------------

- Executed **150+ manual test cases** and reported **40+ defects** across web and mobile applications.
- Automated functional testing using **Selenium WebDriver, Java, TestNG, and POM framework**.
- Performed mobile application testing using **Appium** on emulators and physical devices.

Automation Intern — Robowaves	Jun 2025 – Dec 2025
--------------------------------------	---------------------

- Worked on **AI-powered testing automation workflows**.
- Designed and executed automated test scenarios to improve software testing efficiency.
- Collaborated on automation strategies and test execution improvements.

Projects

E-Commerce Fashion Storefront Enhancement — React.js, Node.js, Express.js

- Enhanced an **e-commerce fashion storefront** with focus on premium UI/UX and responsive design.
- Improved **homepage experience, product layouts, responsiveness, and visual consistency** across devices.
- Worked on **API integration, authentication/login flow, debugging, frontend interactions, and UI optimization**.
- Leveraged **GitHub Copilot, Codex, and Claude AI** to accelerate debugging, implementation, and development productivity.
- Contributed to creating a more polished, scalable, and user-friendly shopping experience.

E-Commerce Website Automation Testing — Java, Selenium WebDriver

- Designed and implemented end-to-end automation scripts for an e-commerce website.
- Automated **login, product search, add-to-cart, and checkout workflows**.
- Used dynamic **XPath locators**, wait conditions, and validations for reliable automation.

Data Deduplication Strategies for Secure and Efficient Cloud Storage — Java, MySQL

- Developed a **Cloud Storage Monitoring System**.
- Implemented duplicate file elimination and ranking mechanism based on access patterns.
- Applied **compression techniques** to optimize storage utilization.

Technical Skills

Programming Languages: Java, JavaScript, SQL, Python (Basics)

Web Development: React.js, Node.js, Express.js, REST APIs, HTML, CSS, Bootstrap

Automation Tools: Selenium WebDriver, Appium, JMeter, Postman, Fireflink-AI

Testing: Manual Testing, Automation Testing, Functional, Regression, Smoke, Sanity, System, Performance Testing

Defect Tracking: Jira

Database: Oracle SQL, MySQL

Version Control: Git, GitHub

AI Tools: GitHub Copilot, Codex, Claude AI

Agile Methodology: Scrum, Sprint Planning, Retrospectives, Bug Triage

Certifications

- Automation Engineer in Java – Udemy
- Linux Administration – Red Hat

Achievements

- Silver Medal – Bengaluru North Zone VTU Cricket Championship (2024)
- Bronze Medal – State Level VTU Cricket Championship (2023)
- Gold Medal – Bengaluru North Zone VTU Cricket Championship (2022)

Languages

English, Kannada, Hindi, Telugu, Urdu
